

## BBAF Splash Stories

---

**May is #WaterSafetyMonth  
#GivingTuesdayNow is May 5th**

BBAF celebrates all the kids who have learned to master the water through BBAF swim scholarships and you, our generous supporters, who make it possible. All children should have the chance to learn to be safer in and around the water.

Yet, there's still work to be done. Resources are necessary to ensure every neighborhood child has access to a pool and funding for lessons.

If you believe that every child should learn how to swim, and that swimming transforms lives, please consider making a monthly investment to save lives and change lives.

[Your gift of just \\$30 a month](#) supports and sustains BBAF's vital mission. Every donation, no matter the amount, makes a difference in the life of a local child in need. Thank you for your caring consideration. **#BBAFGTN**

Your donation helps create a community where all children are given the opportunity to learn water safety and begin their journey toward lifelong health and enjoyment, transforming their lives for the better. Thank you!

***"We appreciate BBAF's great work!"***

## Happy Mother's Day!

Cheers to all our BBAF moms  
who know the importance of water safety!

Aubrie, BBAF Mom, shared:

*"We are very grateful for Beyond Barriers! We can't thank you enough for your support! My boys love to swim and are most happy in the water. My oldest used to be petrified of water but we put him in swim lessons to help him overcome his fear of water. A few years ago something clicked and swimming became his favorite activity. My partner is in school and, needless to say, funds are tight. With BBAF's swim scholarships, we're able to afford the lessons. Thank you for your support and funding!"*

**Because of YOU, the boys learned to love the water, not fear it, changing their lives for the better.**

**THANK YOU!**

## **Shop & Give Swim Scholarships**

Use [AmazonSmile](#) to transform lives through aquatics. Your purchases in support of BBAF will make this season a safe and fun one for neighborhood children who would not otherwise be able to afford swim lessons. Thank you!

Teaching children to swim can mean the difference between a close call and a call to 911.

Thank you for being a lifesaver to local children in need.
